

Looking for a Service Position that really makes a difference?

Mission Creek Women's Correctional Center near Belfair has given our 10th District the opportunity to conduct AA meetings inside the Mission Creek Correctional facility. Many of the problems the Mission Creek residents face are caused by alcohol abuse and often that behavior results in incarceration and a chaotic life. Our hope and desire is to break that chain and present to Mission Creek residents the tools to achieve a lasting sober lifestyle which provides stability, self-esteem, and the ability to "live life on life's term."

To gain admittance a list of our district AA members available and cleared to enter the Correctional Center must be gathered. If you are interested and willing to undergo background security checks please send me name and contact information and I will send the steps needed to gain access to Mission Creek Corrections Center (MCCC).
